

AS Calls for Manuscript Submissions

Agricultural Science (AS) is a peer-reviewed open-accessed journal, which is quarterly published by **todayscience.org** on behalf of Science and Education Centre of North America (SECNA).

This journal publishes research papers in the fields of agricultural science such as crop science, horticulture science, forest science, plant science, soil science, aquaculture, animal science, weed science, food science, entomology, microbiology, ecology, agronomy, environmental horticulture, virology, enology, agricultural economics, agricultural engineering, morphology, Irrigation and water management and other relevant topics. Both theoretical and empirical contributions are welcome. This journal is currently published in both printed and online versions. The full texts are free access and download from online database.

We are seeking submissions for forthcoming issues. All papers should be written in professional English. The length of 2500-9500 words is suggested. A paper template of accepted submission is available on our website <http://www.todayscience.org/authorguide.html>. All manuscripts should be prepared in MS-word format, and submitted via email: as@todayscience.org or jas@todayscience.org in **one way ONLY**.

Please well record your date and way of paper submission.

If your article is rejected after reviewing, the correspondence author will know this result within **7 weeks** from the date of paper submission; if your article is qualified and finally published, it is expected to be published within **7 months** from the date of paper submission.

Papers Selected and Published Process

- a) Upon receipt of paper submission, the Editor sends an E-mail of acknowledgement to the correspondence author within **7 days**. If you fail to receive such a confirmation, your email/ submission may be missing. Please contact the Editor in charge, at your first convenience.
- b) Peer reviews. We use double-blind system for peer reviewing; the reviewers' identities remain anonymous to the authors. The paper will be peer reviewed by three experts: one is the editor of **AS**, and the other two are external reviewers. The review process may take **3-7 weeks**.
- c) Notification of the results of review by e-mail.
- d) If the paper is accepted, the author(s) revise paper accordingly based on comments from reviewers.
- e) The author(s) proofread the edited paper, and pay publication fees. Publication of an article in **AS** is not contingent upon the author's ability to pay the fees.
- f) After publication, the correspondence author will receive **two free copies** of printed journals from Toronto, Canada.

Requirements and copyrights

Submission of an article implies that the work described has **not** been publicly published previously,

Science and Education Centre of North America

neither is under consideration for publication elsewhere, and that its publication is approved by all authors and tacitly or explicitly by the responsible authorities where the work was carried out. And submission implies that, if accepted, it will not be published in the same form, in English or in any other languages, without the written consent of the Publisher. Editor(s) reserve the rights to edit or otherwise after all contributions, but authors will receive proofs for approval before publication.

The authors retain copyrights for articles published in **AS**, with first publication right granted to the journal. The journal/publisher is not responsible for subsequent uses of the work. It is the authors' responsibility to bring an infringement action if so desired by the authors.

The journal publishes theoretical articles and empirical studies in a wide range of agricultural science. Both theoretical and empirical contributions are welcome.

List of relevant subjects

Crop science	Agricultural Botany
Agronomy	Economic Botany
Horticulture	Medicinal Plants
Forestry	Phytochemistry
Pomology	Phytopathology
Viticulture and Enology	Plant Biotechnology and Tissue Culture
Vegetable Science	Plant Breeding and Plant Genetics
Floriculture	Plant Cytology
Landscape Horticulture	Plant Virology
Weed Science	Plant Physiology
Plant Cytology	Preharvest and Postharvest Science
Plant Ecology	Plant Anatomy and Morphology
Soil Sciences	Plant Nutrition
Entomology	Plant Protection
Food Science and Food Biosafety	Plant Based Biofuels and Bioenergy
Pesticide Science	Natural Resource Science
Animal Science	Ecological Agriculture
Aquaculture and Fisheries	Plant Systematics
Poultry Science	Irrigation and Water Resources Management
Veterinary Science	Agricultural Engineering
Agricultural Economics and Agribusiness	Agricultural Meteorology
Agricultural Policy and Management	Climate Change and Sustainable Agriculture
Forestry Economics and Management	Wildlife Science
