

## **IJERE Calls for Manuscript Submissions**

**International Journal of Environmental and Resource Economics (IJERE)** is a peer-reviewed open-accessed journal, which is quarterly published by [todayscience.org](http://www.todayscience.org) on behalf of Science and Education Centre of North America (SECNA).

Journal aims to publish theoretical and empirical papers devoted to economic analysis on natural resource and environmental issues. Topics of interest include but are not limited to: Environmental ecological, and resource economics and policy; Energy economics and policy; Low-carbon economic policy and sustainable development; Utilization and development of natural resources (renewable and non-renewable); International trade and global environmental problems; Analysis of environmental problems and development strategies; Natural resources (renewable and non-renewable) management, conservation and policy; Sustainable agriculture and development; Economic analysis on climate change studies. Both theoretical and empirical contributions are welcome. This journal is currently published in both printed and online versions. The full texts are free access and download from online database.

We are seeking submissions for forthcoming issues. All papers should be written in professional English. The length of 2500-9500 words is suggested. A paper template of accepted submission is available on our website <http://www.todayscience.org/authorguide.html>. All manuscripts should be prepared in MS-word format, and submitted via email: [ijere@todayscience.org](mailto:ijere@todayscience.org) in **one way ONLY**.

**Please well record your date and way of paper submission.**

If your article is rejected after reviewing, the correspondence author will know this result within **7 weeks** from the date of paper submission; if your article is qualified and finally published, it is expected to be published within **7 months** from the date of paper submission.

### **Papers Selected and Published Process**

- a) Upon receipt of paper submission, the Editor sends an E-mail of acknowledgement to the correspondence author within **7 days**. If you fail to receive such a confirmation, your email/submission may be missing. Please contact the Editor in charge, at your first convenience.
- b) Peer reviews. We use double-blind system for peer reviewing; the reviewers' identities remain anonymous to the authors. The paper will be peer reviewed by three experts: one is the editor of **IJERE**, and the other two are external reviewers. The review process may take **3-7 weeks**.
- c) Notification of the results of review by e-mail.
- d) If the paper is accepted, the author(s) revise paper accordingly based on comments from reviewers.
- e) The author(s) proofread the edited paper, and pay publication fees. Publication of an article in **IJERE** is not contingent upon the author's ability to pay the fees.
- f) After publication, the correspondence author will receive **two free copies** of printed journals from Toronto, Canada.

### Requirements and copyrights

**Submission** of an article implies that the work described has **not** been publicly published previously, neither is under consideration for publication elsewhere, and that its publication is approved by all authors and tacitly or explicitly by the responsible authorities where the work was carried out. And the submission of a manuscript to this journal implies that, if and when the manuscript is accepted for publication by the journal, the authors agree to automatic transfer of the first publication rights to the journal/publisher, and permit the journal/publisher to apply a DOI to their articles and to archive them in databases and indexes. All open access articles published in **IJERE** are published under the [Creative Commons Attribution 4.0 International License](#). Copyrights for articles are retained by the authors. Authors have rights to reuse, republish, archive, and distribute their own articles after publication.

**The authors** retain copyrights for articles published in **IJERE**, with first publication right granted to the journal. The journal/publisher is not responsible for subsequent uses of the work. It is the authors' responsibility to bring an infringement action if so desired by the authors.

**The journal** publishes theoretical articles and empirical studies in a wide range of agricultural economics and business topics. Both theoretical and empirical contributions are welcome.

### List of relevant subjects

Environmental, ecological, and resource economics and policy

Energy economics and policy

Low-carbon economic policy and sustainable development

Utilization and development of natural resources (renewable and non-renewable)

International trade and global environmental problems

Analysis of environmental problems and development strategies
